14 March 1973

STATINTL

Mr. Yale

Accepted Policy

STATINTL

The attached paper from Chief, C&T confirms previous proposal that C&T could reduce by five (5) positions in FY 1974. It should be noted that the Office of Finance was required to reduce only three (3) positions in C&T in the FY 1974 Planning Paper. Mr.  also advises he will have two (2) ~~more~~ additional positions for reduction after parallel operations and system implementation. I would propose to retain these other four (4) positions on the PCR through FY 1975 -- might be used for DMC or RTT if approved.

STATINTL

STATINTL

The personnel he has identified as available for reassignment will be considered in future planning since  has not given specific dates of availability. I have been trying to get Bruce  released for Central Travel Branch for two months and could also use another GS-5/6 for Commo in the very near future as replacement for  (moving to FE).

STATINTL

No action at this time other than what we've taken in Program for 1974.

STATINTL

*Not moving
right now because
heart attack*
